    Cadd9                          G
I'm really gonna miss you picking fights
       D                                  Em7
and me falling for it screaming that I'm right
              Cadd9                          G
And you would hide away and find your peace of mind

with some indie record that's much cooler than mine
